

Subject: [radiojove-data] 17 Mar 2016 Io-A

From: Dave Typinski <davetyp@typnet.net>

Date: 03/19/2016 01:20

To: RadioJove-Data <radiojove-data@lists.nasa.gov>

Adding to Jim & Tom & Wes & David & Nathan's nice reports, here's some Io-A from Thursday morning.

RCP dominant L bursting 0444-0710 UTC from 16 to 27 MHz, negative drift emission envelopes.

Tiny hint of some LCP emission just above 16 MHz around 0655 - 0700 UTC.

Jupiter was -5° to $+31^\circ$ off axis.

Jupiter was trailing the Sun by 170° .
