

January 29, 2017 Non-Io-C from RADIO ALACHUA

From my Log Book:

Non-Io-C: 0850-0912UT LCP, Positive Slope L-Bursts from 15 to 18.75 MHz.

This one is a puzzler. It falls right between the borders of Non-Io-A and Non-Io-C, yet it has the polarization parameters of Io-D (plus slope, LCP). Maybe Dave can make a better call.
